

INGEDE Working Group DIP Quality Management at Kadant

The working group DIP Quality Management met last time on 2 – 3 November in Vitry-le-Francois by invitation of Kādant. The host was convinced by innovational presentation of the latest developments in deinking technology and support systems underlined by a short visit of pilot facilities and manufacturing units.

members of the Working Group DIP Quality Management

Contents of the second day's workshop were:

- Member reports of news and actual subjects in the area of stickies appearance and actions in prevention, discolouration by fle-

xo- and red offset-inks, implementation and first experiences of predictive control system (EPOSc).

- Standard news with one-loop-

system and the question of impact and need of dispersing . The INGEDE members should be asked about their experiences for discussions at the next meeting..

- Deinking process parameters and their impact on DIP Quality
- Fibre recovering and selective pulp treatment (supported by Kādant experience)
- Support for external relations
- evaluation of research project proposals

DIP quality data base will be an issue at next meeting. Please note: this meeting is already fixed and will be held at Norske Skog Parenco on 10 -11 May 2010.

Holmen Braviken and SCA Ortviken win PPI Awards

Rikard Wallin of Holmen Paper's Braviken Paper Mill in Sweden has been awarded "Mill Manager of the Year". At a ceremony in Munich, Wallin received the trophy sponsored by Kadant Lamort. Launched for the first time in 2009, the Pulp and Paper International (PPI) Awards are designed to honor leadership, vision, innovation and strategic accomplishments of companies, mills and individuals within the global pulp and paper industry. An international panel of judges, made up of industry experts, selected the finalists and

day seminar by RISI, information provider and publisher of the PPI magazine.

The awards were given away in ten categories. **SCA's Ortviken** Paper Mill won the prize for the "Environmental Strategy of the Year". Among the finalists in this category was also Austrian-based **Lenzing Papier**. The PPI Awards are the only global awards dedicated to recognizing

winners. The Awards were held in conjunction with the Metso Pulp and Paper Technology Days and a half-

achievements in this sector. More: www.ppiawards.com
